

# **Motion to Ban Video Games from Friday Night Gaming in the next year**

**Proposer: Robert Barbu (5599013)**

**Seconders: Raven Taylor (2210310), Finn McGoldrick (5532759),  
Riley Knight (5511313)**

## **This Society Notes:**

- Video games are widely played at the event “Friday Night Gaming” most weeks.
- Prolonged sessions of playing video games can lead to several health issues, including, but not limited to, eye strain, carpal tunnel, and excessive blue light exposure.
- Video games such as GTA V and Guilty Gear Strive promote fighting, violence and other illegal behaviour which is not accepted in our society.
- UWCS members are mainly Computer Science students, thus use screens extensively as part of their degree

## **This Society Believes:**

- Eye strain and other related consequences of looking at screens for prolonged periods of time are bad
- UWCS must take responsibility in promoting healthy behaviour to its members

## **This Society Resolves:**

- To make active steps towards and remove video games from the event “Friday Night Gaming” within the next year
