

Circles motion (Non-constitutionally changing)

Proposer: Rowan Shields

Seconder: Nicholas Mason-Apps, Joshua Rawlings

The Society Notes

- In previous years the social secs have not been present/running their circles
- In previous years the society has only run one circle a year in some terms

The society believes

- The society is obligated to uphold the tradition of circles as being a society at the University of Warwick
- Holding more circles would prove pretty mega

The society resolves

- The social secretary should (not must) run/hold at least two circles a term
- If the social secretary is unable to hold the circle, they should appoint a representative who can run the circle in their stead
