

# **Motion to Add Postgraduate Representative**

**Proposer: Lewis Parry, u22202942**

**Seconder: Lucy Siket, u5529791**

## **This Society Notes:**

- Postgraduate students often have different academic, social, and professional needs compared to undergraduate students, which may not always be fully addressed by the society's general activities.
- Engagement from postgraduate members can enrich the society through diverse perspectives, advanced expertise, and unique experiences.
- Currently, there is a gap in representation and tailored events specifically aimed at postgraduates within the society.

## **This Society Believes:**

- Postgraduate students should have a dedicated representative to ensure their interests and needs are effectively represented within the society.
- Increased engagement and participation of postgraduate members would enhance the overall inclusivity and diversity of the society.
- Tailored events and networking opportunities for postgraduates will foster a stronger sense of community and provide valuable support systems.

## **This Society Resolves:**

- The following lines should be added to the constitution:
  - 4.4.2.a The Postgrads' Representative should endeavour to facilitate and drive Postgrad engagement and events within the society.
  - 4.4.2.b The Postgrads' Representative should act as a point of contact
  - 4.4.2.d The Postgrad's Representative should assist with and be supported in the planning and running of events they perceive as relevant to other Postgrads, along with the general activities of the society
  - 4.4.2.e This office will be elected in a by-election run between weeks one to five of term one.
