

Motion to increase presidents and remove shared office from President role

Proposer: Jakub Kisielewski (5597734) Second: Edward O'Dwyer (5605996) Third: Rowan Shields (220761)

This Society Notes:

- The role of President carries significant responsibility and a heavy workload.
- Many former Presidents have reported feeling overwhelmed by the demands of the position.

This Society Believes:

- Establishing a second seat for the president role, i.e. formalising 2 Presidents for the society will alleviate workload for any single President and allow for more effective and stress-free fulfilment of the president role.
- This addition will help ensure smoother society operations, reduce the risk of burnout of any single president, and maintain continuity during periods when a President is unavailable.

This Society Resolves: *(for constitutionally-changing motions only)*

- To amend Section 6.3 Shared Office of the Constitution to increase the number of seats available for the President role by 2 and removing the option of shared office from the President role.

6.3 Shared Office

- 6.3.1 Treasurer, Sports Officer, and Events Officer shall be filled by one (1) seat. President, Secretary, Welfare, and Publicity shall be filled by up to two (2) seats. Academic, Gaming, and Social shall be filled by up to three (3) seats. Technical Officer shall be filled by up to four (4) seats. Additional positions should be filled in accordance with 6.3.2.
- 6.3.4 A maximum of two (2) Members may run together in one seat, with the exception of Fresher Representative and President positions, which must be held by a single (1) individual.
