Motion to Introduce a Triple Lock on Standard Membership Fees

Proposer: Panagiotis Kouzaris (5792112)

Seconders:

- Bharat Haria (5679255)
- Mafi Illumina (5678455)
- Jake Lu (5688973)

This Society Notes:

1. Standard membership is free under section 6.1 of the Constitution.
2. The State Pension triple lock uses the highest of earnings growth, CPI inflation and 2.5%.
3. Raising a £0 fee by any percentage still leaves it at £0.

This Society Believes:

1. Membership should stay free.
2. The financial integrity of the Society is non-negotiable.
3. In these trying times for the economy, the Society should also seek to protect its financial stability against rising costs.

This Society Resolves:

1. To give the standard membership fee a triple lock, with an annual increase equal to the highest of 2.5%, earnings growth and CPI inflation.
2. To amend section 6.1 of the Constitution as set out below.

Amendment to section 6.1

Existing text:

> 6.1. Standard Membership of the Society shall be free, or £0.00.

Proposed text (addition highlighted):

> 6.1. Standard Membership of the Society shall be free, or £0.00. ***On 1 September each year, the standard membership fee shall increase by the highest of 2.5%, annual growth in seasonally adjusted average weekly total pay including bonuses in Great Britain over the latest three-month period, and UK Consumer Prices Index twelve-month inflation, using the latest figures published by the Office for National***

> ***Statistics before that date. Later revisions to those figures shall not change the fee already set for that year.***

The earnings series shows how average weekly total pay, including bonuses, has changed compared with the same three months a year earlier. The figures are seasonally adjusted, exclude pay-award arrears and are not adjusted for inflation. The CPI series shows how prices have changed over twelve months. In each series, use the latest figure published before 1 September.
