Motion to Establish the Society as Its Own Official Sponsor

Proposer: Panagiotis Kouzaris (5792112)

Seconders:

- Luca Bradbury (5787666)
- Zach Ettinger (5770647)
- Joseph Lawler (5679205)
- Segev Ash (5709666)

This Society Notes:

1. The Society provides resources, organisation and publicity in support of its own activities.
2. These contributions are not presently recognised through a formal sponsorship arrangement with itself.

This Society Believes:

1. The Society's continued support for the Society merits public acknowledgement.
2. Recognition of this support would demonstrate confidence in the Society's activities and its ability to attract a committed sponsor.

This Society Resolves:

1. To recognise the University of Warwick Computing Society as an Official Sponsor of the University of Warwick Computing Society.
2. To request that the Society's own logo be displayed alongside its sponsor acknowledgements, identified as "Official Self-Sponsor".
3. To request that the President(s) thank the Society for its generous support in the next annual report.
4. To specify that the sponsorship contribution shall consist of the support the Society already provides to itself, without additional expenditure or a transfer of funds to and from itself.
5. To recognise that this arrangement continues for so long as the Society continues to support its own activities.
