1 This Society Notes:

- The Department of Computer Science is made up of an incredibly diverse cohort of students, with many of those students coming from different ethnic or cultural backgrounds.
- Ethnic Minority students may have different needs from the society, and may face challenges upon interacting with the society.
- There is a gap in representation for ethnically diverse students, both within our executive structure and the demographic of students who interact with the society.

2 This Society Believes:

- An Ethnic Minorities representative would facilitate engagement and create a more welcoming environment for students of colour, promoting our goals to be a welcoming and inclusive society to all students interested in the field of Computer Science.
- Ethnic Minorities deserve designated representation from within the Society Executive, both to account for specific needs and act as a point of contact for students.

3 This Society Resolves:

- The following lines should be added to the constitution under Section 4: Executive Committee:
  - **Ethnic Minorities Representative**

    * The Ethnic Minorities Representative should help and create a welcoming atmosphere for people of colour within the society by hosting varied events to create community with support from the Executive Committee.
