1 This Society Notes:

- The current role of the Fresher's Representatives is to assist the main executives in their category with their responsibilities and with planning and running relative events
- This society currently elects a Fresher's Representative to the category of Treasurer. A role where the bulk of the responsibility is undertaken before the election of the Fresher's Representative and a role which does not run events

2 This Society Believes:

- The Fresher's Representative in the Treasurer category ends up having no treasurer aligned responsibility over the academic year
- There is nothing innate to this role to potentially support transition to becoming a Treasurer. The closest point for experience is to assist with WHACK which is open to non-executives.
- As such the role of the Treasurer Fresher's Representative serves no purpose to the wider society

3 This Society Resolves:

- To remove the Treasurer Freshers Representative

4.4.3.c Up to one (1) Freshers' Representative should be selected for each category of events the society runs, currently: Academic, Social, and Gender Inclusivity~~,and Treasurer~~. Up to two (2) for Gaming and Technical.
