

# ***Motion to optimise the Society's SEO***

Proposer: Raven Lucia (2110310)

Seconded: Finn McGoldrick (5532759)

## The Society Notes:

- As the driver of innovation in the sphere of student computer science at the University of Warwick, the society currently has over 400 members.
- Currently, UWCS is listed well in the depths of the list of societies on the SU's societies page: <https://www.warwicksu.com/societies-sports/societies/>
- This is due to societies being listed in alphanumeric order.

## The Society Believes:

- By not maximising our ranking on the SU's societies page, we are depriving our members of social mobility, and the chance to meet more individuals that will lure them to the grass that has long awaited their touch.
- We should strive for excellence, and make the society's name reflect our lofty ambitions to bring social skills to the lives of Computer Scientists.

## The Society Resolves:

- To amend 1.1 of the Society Constitution to read:
  - o "The name of the society shall be "(UWCS) University of Warwick Computing Society"."
