1 This Society Notes:

1. The current constitution lacks provisions for proper fair process and transparency in co-options.
2. These lack of provisions have caused uncertainty and concerns amongst members recently.
3. The Warwick Student Union does not implement such provisions beyond a 10 term week limit for a co-optee, maximum of 2 co-options per cycle, and by-electing the co-opted role within the 10 term weeks (as opposed to co-opting again).

2 This Society Believes:

1. Should a seat be considered for co-option by the Executive Committee, there should be a mandatory nominations period of at least 7 days, open to members eligible to stand in an EGM/AGM/by-election.
2. The starting of the co-option process should additionally require a quorate vote by the Executive Committee, with the decision and outcome of the vote being minuted and made available to all members.
3. Similarly, any Executive Committee vote on a "nominee" for co-option following the nominations period should have its outcome made available to all members.

3 This Society Resolves:

1. To amend the "Election Procedures" section of the Constitution to add the following:
    - 8.6 Vacant seats must require the passing of a quorate vote of the Executive Committee to begin the co-option process, in addition to adhering to requirements laid out by SU governance. The outcome of such a vote must be made available to all members within 7 days, and before continuing the co-option process.
    - 8.7 Candidates for co-option must be determined by a nomination period open to members who would be eligible to nominate in a General Meeting or by-election, for a minimum of 7 days.

- 8.8 Executive Committee votes on nominees for co-option must pass and be quorate for the co-option to proceed, and the outcome of the vote must be made available to all member within 7 days, before the nominee can fulfill the position.
