Motion to Establish the Office of Milk Officer

Proposer: Panagiotis Kouzaris (5792112)

Seconders:

- Zach Ettinger (5770647)
- Luca Bradbury (5787666)

This Society Notes:

1. The Society has held Milk Midnights and other milk-related events.
2. Milk arrangements are currently shared between members of the Executive Committee, mainly the Gaming Coordinators.

This Society Believes:

1. **Milk is too important to remain a matter of collective assumption.**
2. The procurement, distribution and continued availability of milk merit a clearly identified line of democratic accountability.
3. Milk Midnights et al. (RIP Milk Mondays), should be accessible to all, as accessible milk is paramount to the society's morale. Dairy-free alternatives should therefore be provided on request or to meet participants' dietary requirements.

This Society Resolves:

1. To add one Milk Officer seat to the Executive Committee by inserting section 9.3.1.i below.
2. To set out the Milk Officer's duties in a new section 9.8.15, as set out below.
3. To ask the Executive Committee to arrange a by-election or Extraordinary General Meeting to fill the seat once the amendment takes effect, following the Constitution and applicable Students' Union rules.

Proposed Constitutional Amendments

All text below is new and is shown in bold.

Insert under section 9.3.1, "By one (1) seat":

> **9.3.1.i. Milk Officer**

Insert after section 9.8.14, Outreach Officer:

> **9.8.15. Milk Officer**

9.8.15.a. The Milk Officer will coordinate the Society's milk-related activities. These include Milk Midnights at 00:00 on Saturday during Friday Night Gaming sessions that continue past midnight, and other milk-related events approved by the Executive Committee.

9.8.15.b. The Milk Officer will arrange the supply, transport and distribution of milk and other supplies for these events, within the budget approved by the Society.

9.8.15.c. The Milk Officer will give a brief report at each General Meeting on milk supplies, spending and any outstanding milk-related matters. When there has been no milk-related activity to report, the officer will state that "there has been no material change in the Society's milk position".

9.8.15.d. For the purposes of this role, references to milk include suitable dairy-free alternatives to dairy milk. The Milk Officer will arrange for these dairy-free milk alternatives to be available at milk-related events when requested or needed to meet participants' dietary requirements.
