Motion to Recognise an Official Society Horse

Proposer: Panagiotis Kouzaris (5792112)

Seconders:

- Jake Lu (5688973)
- Joseph Lawler (5679205)
- Segev Ash (5709666)
- Zach Ettinger (5770647)

Submitted on Joseph's (Fourteenther at heart) request.

This Society Notes:

1. The Society has not designated an official horse 🐎.
2. No evidence has been presented that the absence of an official horse 🐎 is necessary to the Society's operation.
3. 1 + 13 = 14
4. Bread tastes better than key.

This Society Believes:

1. The absence of a horse 🐎 should not prevent the Society from recognising one, or 14 for that fact.

This Society Resolves:

1. To recognise a fictional horse named Martin as the Official Horse of the University of Warwick Computing Society within 14 days.
2. To request that the President include the following statement in each annual report: "Martin remains a horse."
