Motion to Restore Milk Mondays Retrospectively

Proposer: Panagiotis Kouzaris (5792112)

Seconders:

- Mafi Illumina (5678455)
- Luca Bradbury (5787666)
- Joseph Lawler (5679205)
- Segev Ash (5709666)

This Society Notes:

1. Milk Mondays have previously formed part of the Society's activities.
2. The archived 2025 Milk Mondays proposal records that the organised event ceased during the 2023/24 academic year.
3. The cessation of organised distribution does not establish that members ceased drinking milk on Mondays.

This Society Believes:

1. The apparent interruption of Milk Mondays may be attributable to an unduly restrictive definition of the event.
2. Relevant milk consumption should receive recognition regardless of whether the Society organised, funded or knew about it.

This Society Resolves:

1. To recognise retrospectively as an Unofficial Milk Monday every Monday since the establishment of Milk Mondays on which at least one Society member consumed milk or a dairy-free alternative.
2. To permit members to confirm a qualifying Monday by self-declaration, without requiring receipts, photographs or retained milk.
3. To request that the next annual report acknowledge the continued success of Milk Mondays on this basis.
4. To recognise that this resolution does not require the Society to purchase milk or reimburse historic private consumption.
